

INVESTMENT OBJECTIVE

The actively managed fund invests predominantly in the Asian local currency bond markets. We seek to deliver superior risk-adjusted returns to the benchmark, placing emphasis on "value instead of carry" and through active management of currency, duration and yield curve management.

Past performance is not indicative of future returns.

CHANCES

Specific engagement in strongly growing emerging countries in Asia.

Return potential from the decrease of yields and/or spreads and price appreciation on individual company level, their currency, as well as on the overall market level.

Broad risk diversification through investing in a large number of individual financial instruments throughout various issuers, countries and currencies.

Where applicable, returns from exchange rate fluctuations.

RISKS

Investments in emerging countries are considered particularly high-risk and volatile.

The performance of the fund unit is subject to changes in the level of yields and/or spreads and market price fluctuations (as well as fluctuations of equity prices in the case of convertible bonds).

There are risks from movements in exchange rates and - where applicable - risks from the use of derivative financial instruments.

Financial instruments are inherently associated with risks. The value of a fund unit may, given the circumstances, fall below the purchase price.

PROFILE OF THE TYPICAL INVESTOR

The Fund is aimed at all types of investors who pursue the objective of capital formation and asset optimisation. Investment in the Fund is only suitable for experienced investors who are able to handle fluctuations in value and significant losses, and who require no guarantee in terms of the return on their investment amount. The investment horizon should be at least three years.
